Catarrh Of The Stomach Is Dangerous

"Thousands Have It and Don't Know It," Says "Frisco." Frequent Milder For Indigestion—How To Recognize and Treat.

"Thousands of people suffer more or less constantly from furred, coated tongue, bad breath, sour burning stomach, frequent vomiting, rumbling in stomach, bitter eructations, gas, wind and stomach acidity and call it indigestion when in reality their trouble is due to gastric catarrh of the stomach," writes a New York physician.

Catarrh of the stomach is dangerous because the mucous membrane lining of the stomach is thickened and a coating of phlegm covers the surface so that the digestive fluids cannot mix with the food and digest them. This condition soon breeds deadly diseases in the form of ulcers, indigestion, food poisoning, and finally cancer.

In catarrh of the stomach a good and safe treatment is to take before meals a teaspoonful of pure Bismarck Magnesia in half a glass of hot water as hot as you can comfortably drink it. The hot water washes the mucous from the stomach walls and draws the blood to the stomach while the bismarck magnesia is an excellent solvent for mucus and increases the efficiency of the hot water treatment. Moreover the Bismarck Magnesia will serve as a powerful but harmless antacid which will neutralize any excess hydrochloric acid that may be in your stomach and sweeten its food contents. Easy, natural digestion without distress of any kind should soon follow. Bismarck Magnesia is not a laxative, is harmless, pleasant and easy to take and can be obtained from any local druggist. Don't confuse Bismarck Magnesia with other forms of magnesia, milks, citrates, etc., but get it in the pure Bismarck form (powder or tablets), especially prepared for this purpose.

USES FOR RELICS TO HELP BUSINESS

SCRANTON, Pa., April 4.—Leave it to Isaac Block, a local huckster, to devise ways and means to drum up trade and to sing the praises of his son, Abe, who is with the Army of Occupation along the Rhine. Block has built up a big business in the last few weeks as the result of exhibiting souvenirs received by him from his boy overseas.

Some time ago Block received a German helmet from his boy, Abe. It didn't take the crafty huckster long to figure out that he could put the helmet to good use. He took the helmet with him daily on his route selling vegetables and used it as a peck measure. The news soon spread about the helmet and scores of women flocked around Block's wagon to get potatoes and apples measured out in the helmet. Block did such a rushing business he had to hire help. Now he has a new scheme. He has just received a bayonet captured from a German by his son, and is using it to chop the scales from fish. Like the helmet, the bayonet is attracting wide attention, and Block is selling more fish in a day than he used to in a week.

Block is a character in the neighborhood where he lives. Most of the other residents of the block are Irish and Block has won a place in their hearts by coming out strongly in favor of home rule for Ireland.

"The Irish people are my best customers," he says, "and why shouldn't I support them in their fight for freedom?"

FOCH GIVES FOE ALLIES' DECISION

SPA, April 4.—The German armistice commission today was in possession of the allies' decision regarding the Danzig controversy and in strictest confidence, the observance of the armistice. These were communicated to the enemy representatives in two conferences yesterday.

Marshal Foch conversed with Matthias Erberger, former chairman of the armistice commission, on the former's special train for forty minutes beginning at 9:30 a. m. Foch and Erberger held a second conference later, in which General Weygand, the marshal's aide, General Nudant, French representative on the allied armistice commission, and Gen. Von Hammerstein, present chairman of the German commission, participated.

This meeting was held in Neubois villa, starting at 11 a. m., and continuing for an hour and a half.

The American members of the commission gave a dinner in honor of Foch.

WHETS HIS RAZOR ON OPERA RECORDS

CLEVELAND, April 4.—Grand opera singers who have their voices canned on music records easily believe they are as clear as a bell, but as sharp as a razor—it is so shocking.

But such records will sharpen razors just as sure as Claude C. Hale, of Cleveland, tells the truth, and he declares he has no reason to believe the facts.

Hale put one of his grand opera records on his talking machine, starts it going, then presses his safety razor blades against the revolving record, and with a few revolutions he has "an edge that is an edge."

It assures an "unsustainable and profane shave," Hale insists.

SERB REVOLUTION REPORT DENIED BY MINISTER HERE

The published report from Rome that the dynasty of the Karageorgevichs has been deposed and that a republic has been proclaimed in Belgrade, the capital of the kingdom of the Serbs, Croats, and Slovenes, was emphatically denied today by S. Y. Grouitch, minister of the kingdom of the Serbs, Croats, and Slovenes. "The news has no foundation whatever in fact," said the minister.

HALL'S COUNSEL ASK THOROUGH INQUIRY

RICHMOND, Va., April 4.—Counsel for W. C. Hall, dry agent, and his three deputies, who are held for the killing of two alleged bootleggers, in Shenandoah county, have asked the grand jury to make a full and complete investigation.

In the meantime they are awaiting a decision by Judge Whiting on their petition for bail for the prohibition agents. The court has not yet reviewed all the evidence, it is said.

K. OF C. ADDS 300 WORKERS SINCE SIGNING OF TRUCE

Three hundred workers have been added to the 700 overseas workers in the service of the Knights of Columbus since the armistice was signed, according to William J. Mulligan, chairman of the War Activities Committee.

Cessation of hostilities, he says, did not mean a let-up in the activities of the K. of C. Plans are being made to send over a semi-professional baseball team, headed by a big league favorite.

"OH, BOY!" SAYS BARNETT AS AERO SKIMS WATER

KEY WEST, Fla., April 4.—Major Gen. George Barnett, commandant of the United States Marine Corps is here after an inspection yesterday of the new marine barracks at Miami. He came to Key West via seaplane.

"I didn't like the nose dive, but, oh, boy, that skimming along just above water!" he said as he described the trip.

EDITORIAL

One time we had three horses of about equal beauty, yet one always held first place in our hearts.

He was one of those animals that was forever doing the unexpected, nothing bad, just kept you guessing and, consequently, interested. One of the others never did anything but what you knew he would do. Just an ordinary, every-day sort of horse.

The third one was positively unlikeable, for he had little traits of meanness, of viciousness that kept you constantly on your guard.

The three of them were perfect examples of the three kinds of personalities—positive, neutral, and negative.

The positive person is the one who does things his own way.

The neutral person is he who drifts along with the crowd doing this thing one day and something else the next.

The negative personality needs little introduction.
